

Reader BLE

Specification:

Product Code	508.0000
Power supply	220 AC / 100mW
Connection	WiFi 802.11b/g/n
WiFi Range	max 100mt
Tecnology	Bluetooth Smart BLE
BLE reader	max 30mt
Antenna	Integrated adjustable
IP grade	IP 65
Operating temperature	-10 / +60 C°
Size L x W x H	160 x 55 x 106 mm min
Weight	400 g (without bracket)

Reader BLE

Reader BLE is a device for reading and identifying tags that operates with Bluetooth low energy technology. The data is transmitted via WiFi network to the central server that processes the data and sends the position of the tag with excellent precision.

The device is supplied in a sturdy box that, thanks to an IP65 grade, makes it in optimal solution for use in industrial environments both indoors and outdoors.

The installation of the device requires only the power supply. No other wiring is necessary and this turns into economic savings. Thanks to the adaptable support and the swiveling antenna, the box can be installed almost anywhere!

The Reader is compatible with BLE tag of TagItalia.
